Advisory Services
Become a data-leading organization

We provide a holistic approach to ensure you realize the full potential of your investment in Tableau, faster.
A thriving Data Culture is no longer just a competitive advantage. It is critical to the health—and often the survival—of an organization. But only 8% of companies have been able to realize the vision of analytics at scale. Those companies that invest in data transformation see an average return of $5.3M over 3 years.

Analytics Architect
15 yrs. AVG INDUSTRY EXPERIENCE
100% DEDICATED
6 or 12 mo. DURATION

Analytics Architects help you assess where you are today, align on a vision for the future, and develop a prioritized roadmap to focus on the initiatives that will drive the greatest return. They will ensure the right solution architecture design is in place to support your strategy.

Executive Alignment
Executive leaders align on a shared vision for analytics, understand current state and gaps, and agree on a prioritized roadmap of key business initiatives to accelerate analytics transformation.

Architecture Design
Enterprise architecture and integration strategy informed by aligned vision that defines governance, security, and data management standards, and enables long-term scale of the platform.

Analytics Transformation
Defined program strategy and oversight to enable people at all levels to expand data literacy, through refined processes, streamlined workflows, and an engaged community.

Implementation Architect
8 yrs. AVG ANALYTICS EXPERIENCE
50% DEDICATED
6 or 12 mo. DURATION

Implementation Architects partner with your team to optimize every aspect of your deployment. They’ll help you align on your analytics priorities, build trusted data sources, establish effective governance workflows, develop actionable dashboards, and ensure you maintain an agile Tableau environment.

Agile Environment
Optimized platforms to enable a seamless user experience, user rights and permissions to provide security, and automated processes for ongoing Server management.

Trusted Data
Business needs drive prioritized data creation efforts, and teams have easy access to a centralized set of curated data sources that allow them to address their most critical questions.

Actionable Insights
Improved data literacy and expanded use of advanced analytics capabilities to share key insights through actionable dashboards and make faster, more impactful business decisions.

First 90 days
Every organization faces a different set of challenges and prioritized business needs. Rather than come with a rigid 12-month structure, our team starts every engagement with a 90 day plan of initial activities to fast-track planning efforts.

Ongoing Agile delivery
Our team manages your analytics roadmap as a prioritized backlog of ongoing activities. We collaborate with stakeholders on a regular cadence to review and refine the needs of the business and deliver on the most critical items.
